Congress Schladming - new Media Centre

In the context of the FIS Alpine Ski World Championship 2013 the new Media Centre is currently build in Schladming. The energetic concept which is defined by several ecological benefits represents the Austrian know-how towards environmental and present climate issues. Wood and local products strongly influence the interior design and create a special atmosphere which is affected by the surprising view on the attractive landscape. The Congress Schladming will have 7 convention rooms with various capacities (from 30 up to 1,400 persons). The impressive panorama as well as the inviting construction with its open architecture, equipped with the best available technology guarantees a great experience in the Congress Schladming.

For all information about the facilities, infrastructure and services visit the website: www.congress-schladming.com

Sporthotel Royer ****Superior

Art ... as a synonym for creativity, inspiration, style and enjoyment is part of the hotel philosophy. The Royer is a world of its own - with its service leaving nothing to be desired and its unequalled charm. Regardless weather in cuisine, service, seminar or leisure opportunities the Royer is renowned for its professionalism, friendliness and variety. Modern conference technologies leave nothing to chance; part of the Meeting activities will be in these facilities. Congress Schladming is only two minutes walk away. For more information visit the website: www.royer.at

Meeting themes
Theme I: Processes in sedimentation
Theme II: Basin analysis
Theme III: Marine depositional environments
Theme IV: Continental depositional environments
Theme V: Diagenesis, fluid flow
Theme VI: Applied sedimentology
Theme VII: Hydrocarbon systems
Theme VIII: Hazards, events, climatic signatures
Theme IX: Modelling and application
Theme X: Sediments in mountain chains
Theme XI: Stratigraphy and facies
Theme XII: Geophysics/Seisimics/Petrophysics
Theme XIII: Sedimentary ore deposits
Open Symposium

Field Trips
A1 End-Triassic crisis events recorded in platform and basin of the Austrian Alps: The Triassic/Jurassic and Norian/Rhaetian GSSPs (Austria)
A2 Marine to continental depositional systems of Outer Dinarides foreland and intra-montane basins (Eocene-Miocene, Croatia and Bosnia-Herzegovina)
A3 From Late Triassic passive to Early Cretaceous active continental margin of dominantly carbonate sediments in the Transdanubian Range, Western Tethys
A4 The Rannach Facies of the Graz Palaeozoic
A5 Siderite and magnesite mineralizations in Palaeozoic strata of the Eastern Alps
B1 Middle Triassic platform/basin transition along the Alpine passive continental margin facing the Tethys Ocean (Gamstein; Styria, Austria)
B2 Jurassic active continental margin deep-water basin and carbonate platform formation in the north-western Tethyan realm (Austria, Germany)
B3 Mesozoic deep-water basins of the eastern Southern Alps (Slovenia)
B4 Paleokarst, neptunian dykes, collapse breccias, mud-mounds and sedimentary unconformities (Western Carpathians, Slovakia)
B5 Neogene pull-apart basins in the Eastern Alps

Short Courses
AS1 Fluid inclusions in diagenetic environments
AS2 Geological modelling with Gemcom Surpac™
AS3 How Petrel can be a powerful tool for sedimentology?
AS4 Petrophysical modelling
BS1 Magnetic stratigraphy
BS2 Tracers in organic geochemistry - biomarkers and stable isotopes
BS3 The multiphase flow behaviour of naturally fractured reservoirs
BS4 Geological modelling for coal/stratified deposits with Gemcom Minex™

Calendar
30 September 2011: Deadline for proposals of Symposia/Sessions
November/December 2011: 2nd Circular: CALL FOR ABSTRACTS; registration and abstracts website open
30 April 2012: Deadline for submission of abstracts. Deadline for payment of registration (meeting, field trips, short courses) with no extra charge
July 2012: 3rd Circular: PROGRAMME

29th IAS MEETING OF SEDIMENTOLOGY

10th - 13th September 2012
Schladming, Austria

Sedimentology in the Heart of the Alps

www.sedimentologists.org/ims-2012
IAS2012@unileoben.ac.at

Organizing Committee
Hans-Jürgen Gawlick, Chairperson, Montanuniversitaet Leoben
Sigrid Missoni, Vice-Chairperson, Montanuniversitaet Leoben
Fritz Ebner, Montanuniversitaet Leoben
Stephan Matthei, Montanuniversitaet Leoben
Karl Millahn, Montanuniversitaet Leoben
Johann G. Raith, Montanuniversitaet Leoben
Reinhard Sachsenhofer, Montanuniversitaet Leoben

Organized by
Montanuniversitaet Leoben, Austria
Department of Applied Geosciences and Geophysics
Congress Schladming
Sporthotel Royer

Mineral resources in the Tauern valleys.

In the second wave of somewhere for covering the mineral resources. Rom Taurisci) overran the Enns valley in dis Celtic tribes (the Alauni, Sevater and unique combination of tradition and modernity of alpine and international flair all conveniences of an up-and-coming alpine town in marvellous settings. Warm and sincere people, unrivalled by its natural beauty and mineral wealth,

Traditionally, with a healthy view to the future!

Warm and sincere people, unrivalled by its natural beauty and mineral wealth, all conveniences of an up-and-coming alpine town in marvellous settings. The unique combination of tradition and modernity of alpine and international flair offers new perspectives to both, locals and their guests alike.

Celtic tribes (the Alauni, Sevater and Taurisci) overran the Enns valley in the year 1875 through the Enns valley in the year 1875. Later, mining was reactivated but did not bring back the former wealth. Remnants of the town gate, town walls, smelters and mines attest the history of this region. With the construction of the railway through the Enns valley in the year 1875 began the triumphal entry of tourism in this region.

"Slaebnich" was founded in the year 1180 - mainly based on a booming mining industry. The exploration and exploitation of polymetallic ores (silver-enriched lead) zinc and silver-enriched chalcopyrite- and fahlerz deposits, Cu-(Co-, Ni-) ores and in veins Ni-, Co-, Bi- and Ag) stood certainly for wealth and economic influence between the 14th to 16th century. Outside influences ended this time of prosperity ruggedly and dramatically. Later, mining was reactivated but did not bring back the former wealth. Remnants of the town gate, town walls, smelters and mines attest the history of this region.

With the construction of the railway through the Enns valley in the year 1875 began the triumphal entry of tourism in this region.

The journey itself is the ultimate goal. Clear winter air brightens all senses. Discover renewed strength. Find inner peace. Amid pristine countryside.

Most of our countryside is still untouched by human hand. A vacation spend in this magnificent mountain world regenerates your whole being. The imposing walls of the Dachstein Massif, scenic alpine summits on the Tauern side of the region, idyllic alpine valleys abloom with life, clear streams and mountain lakes, high moors, alpine huts, chapels and the region highest waterfalls - these are some destinations of the glorious landscapes. The combination of mountain, water and excellent tourism infrastructure promises unforgettable adventure.

Mysterious, historical and culinary theme paths are sources of complete joy for all who choose to explore our beautiful countryside under their own power.

Winter in Schladming and Rohrmoos means ...

Crystal-clear, naturally pure ...
... this is autumn in the mountains

The very best, most fun-filled activities "all-inclusive" brought together by the Schladming-Dachstein Sommercard. With the Sommercard your vacations is now twice as rewarding - You will get to enjoy the vast majority of the regions recreational opportunities without having to pay one cent extra! When you arrive at one of our outstanding "Card Partners" lodging establishments, you will receive your own Sommercard - it’s free of charge and valid for the full duration of your vacation, even on your arrival and departure days. Further information: www.sommercard.info

Other important things you should know!

Destination

Schladming can be reached easily by train from the nearby airports: Munich, Vienna, Salzburg, Linz, Klagenfurt, Graz or Innsbruck. Regular connections to international express trains exist (www.oebb.at). Public bus service is available in all towns of the Schladming-Dachstein region. Schladming can be approached by car on the main road B 320 continuing from the highway A 10 (north-south direction: Germany - Salzburg - Villach - Italy/Slovenia) or from the A 9 (north-south direction: Germany - Passau - Linz - Graz - Slovenia).

Accommodation

29th IAS Meeting participants will be offered a wide range of accommodation options, most of them in walking distance to the venue. Schladming and the Schladming-Dachstein region offer a diverse range of stylish hotels, comfortable vacation apartments, guest houses, bed and breakfast guest beds, camping or for an exceptionally authentic experience a farm holiday. Most have been reserved for this meeting and will be offered at discount rates. Prices for suitable accommodations start at 25 EURO/night. Schladming-Rohrmoos Tourist Office helps to organize inexpensive and exclusive one-way and round-trip opportunities between the airports and Schladming. Transfer service and all reservation facilities will be arranged by our advisors of the Schladming-Rohrmoos | Schladming-Dachstein Tourist Office (Mr. Johannes Baltl: Johannes@schladming.at; Ms. Tanja Schweiger: tanja@schladming.at). Feel free to contact them.
